Features & Benefits

Telescopic Capture Port with Enclosed Blade

- Blade moves in unison with capture port affording versatility in any surgical situation. Integrated design eliminates need for blade replacement saving time and money

Cam Lock System

- Prevents capture port movement during surgery. Audible click upon activation/deactivation of locking mechanism

Responsive, Multi-Directional Swivel

- Unique, floating ball joint design allows unrestricted hand movement

Integrated Wire/Tubing Management

- Ultra-light, PVC free, flexible tubing designed to reduce wrist pull and hand fatigue

Telescopic Capture Port with Enclosed Blade
